Reflection
What I enjoyed most

- See your imagination come alive

- Learning process

- Designing process

Niraj Amatya

Reflection
What I struggle most

- Ideas and Design

- Concept of Flexbox, postion, responsive design

- Design for the mobile first concept

- Preconceived thinking about CSS stoped me from learning

Reflection
What I would do differently

- Invest more time in planning.

- Identify what is most important for your project and focus on only those elements

Ethical Issues

- Coding vs copying from resources like w3schools

- Copyright issues with images

Questions ????

```css
.fear {
    display: none;
}
```
